

Peak Performance Filamatic's Industry-Leading Service Agreement

A Cost-Effective Plan to Boost Your Productivity

Maintain Peak Production Schedules

At Filamatic, our passion is to keep you productive and your filling operation running flawlessly. That's why we're introducing Peak Performance, a new program designed to keep your machines running at full capacity.

Peak Performance is more than a service plan. It's a productivity tool, a dedicated service team, an easy, cost-efficient way to maintain peak production schedules and protect your investment.

year agreements

PEAK PERFORMANCE DELIVERS:

Increased productivity, fewer mistakes, less downtime

We make sure operators are fully proficient with machine operations and change-over functions.

Enhanced operator training

We provide additional same-level training as initial machine installation.

Proven trouble-shooting techniques

We educate maintenance staff/operators on troubleshooting techniques to quickly isolate and resolve problems.

Money saving preventative maintenance

Preventative maintenance tasks that your maintenance staff/operators can perform routinely to increase efficiency.

Comprehensive evaluations and tune-ups

Pro-active evaluations and tune-ups to prevent unforeseen problems.

Retrofits

As technology allows, we will retrofit your machine to meet new demands.
