Since 1952

Over 65 Years of Liquid Packaging Experience

BOOST YOUR OUPUT with the FILAMATIC Benchtop Series

FILAMATIC provides you with you the widest range of liquid filling solutions and industry experience while still giving you the lowest cost of ownership. Our line of semi-automatic machines are ideal for smaller and limited batch runs, and flexible enough to dispense free-flowing, semi-viscous to viscous, as well as molten products, pastes and creams. FILAMATIC'S Benchtop solutions provide an accurate, dependable and mobile filling unit to address your everyday liquid filling needs.

- Perfect for Test Labs and R&D applications
- Easy to set up, operate, clean and perform recipe specific changeovers
- Industry compliant and cleanroom ready equipment
- Durable stainless steel structure with FDA approved product contact parts
- Upgrade with automated capabilities
- Made in the U.S.A.
- Optional XP & CE models
- Servo filling available

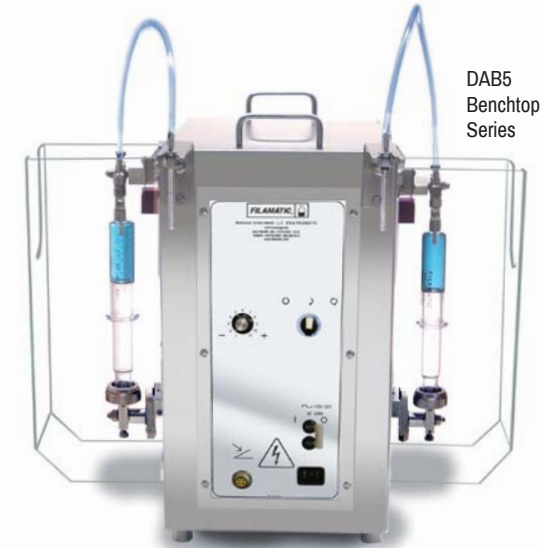

AB5 Benchtop Series

GET AFFORDABLE & FLEXIBLE SOLUTIONS Customized to Your Exact Needs

The Benchtop Filling Series can accommodate a wide variety of liquid products as well as different pump options:

- Piston Pumps
- Peristaltic Pumps
- Gear Pumps
- Lobe Pumps

DAB5
Benchtop
Series

The AB5 & DAB5 Series is available in a range of Medium to Heavy Duty liquid filling units. These different options offer additional capabilities regarding your speed and overall system power.

FILAMATIC also gives you a range of Benchtops that offer Peristaltic pump specific solutions. The AdaptaFIL and SmartFIL are well-known for their recipe control, quick and easy changeovers and a user-friendly HMI touchscreen. These solutions give you the ability to add multiple pumps, or even choose among different Peristaltic brands. The AdaptaFIL and SmartFIL are high-quality, reliable and affordable Benchtop options.
